Subject: Vanuatu fundraising follow up

Hi Chris

I'm just following up on our phone call a couple of weeks ago about the fundraising for Vanuatu. If my memory is correct, you mentioned you were going to have an NZCOM regional meeting and then let the other regions know what your fundraising approach was going to be, and perhaps even help coordinate the overall plan? And my understanding is that this would tie in with International Day of the Midwife.

I was wondering how the planning is going and what the Wellington region has decided to do and what information/assistance you've passed on to the other region chairs, as that would be some good background information for the story I'm putting together for the next issue of Midwifery News.

The other part of that is that I'd also like to follow up with the regional chairs to remind everyone that we'd love to have photos for Midwifery News of the fundraising activities/events around the country.

Thanks for your help, Chris.

Cheers,
Annie
