Wellington.

Dear Stan,

Please find enclosed the last of my stat forms as at the moment I am no longer working as a domiciliary midwife.

If you are satisfied with the modified stat form that Joan forwarded to you ~~could~~ could we proceed with distributing the form. Joan has contact with a man in Sydney, Australia, who has already programmed their stat forms, if you get in touch with Joan she could put you into contact with him re using the same computer jargon (Sorry about being a bit vague about this - the message I received was a bit vague too).

Then if xeroxed copies could be sent to all the Home Birth Associations (probably be easiest if you just send one copy & they xerox ~~that~~ on their own requirements). Then the Home Birth Associations can either fill in the stat forms themselves (I understand some midwives have been unable to fill in theirs) or forward them to the midwives themselves.

Thankyou for your help

Yours sincerely

Gillian McNeill.

P.S. Sorry about the hastily scribbled letter. I have a new baby of my own so it's difficult catching a free moment!
