which must be getting close to the mark so we need to have really close communication. Can you let me know you Wn stats to date?

Has Henrietta got that letter re \$10.00 costs drafted out yet? We would like to have it soon.

At AGM a motion was made to have a personal délegation go to Wn to discuss dom mws wages with Gair on basis of a cost analysis, in which case the Dom MWS Assn should be a properly consitiuted assn - under Societies Act - fairly routine procedure. Is there a lawyer among your ranks who could attend to this very soon?

This should keep you busy!!!

Have a prummy in labour.
