Higgins Rd,
Hamilton,
28 May 81.

Dear Lyn,

I agree, we certainly do need our own Assoc.
My pet grievance is the Doctors. We only have two
here in Hamilton, willing to take their own girls.
No outsiders at all, then, only in their own area.
I have had cancellations because of the Doctors lack
of co-operation. Also a number of G.P's. are going
out of obstets. as their practices are now too busy.
As far as I can remember, the stats. are.
Normal deliveries: 7. Lacerations: 2.
Episiotomy : 1. Ergometrine : 1.
No pain relief. Primip: 0/1 (Prev. abortion)
No transfers.
Babies: Suction: 1. (true knot in cord.)
Jaundice: 1. (mother R.H.Neg.)
No Vit, K. No transfers.
All breast fed well.
I hope this covers the relative facts.
Eye for now.

Thelma.
