July 23rd, 1984.

Alison Hendley,
Health Department,
P.O.Box 5013
Wellington.

Dear Ms Hendley,

Further to my telephone communication of this morning, I would like to confirm that we would like the 17% increase granted by the Minister added to the labour and delivery part of the fee. This will increase the fee payable for attending the labour and birth from \$36 at present to \$60.10.

With the change in Government we intend making further application for an urgent review of the fees payable later in the year.

I would be interested to know whether this increase is to be checked especially in the light of our ongoing efforts to have it implemented since July 1982.

Yours faithfully,

Bronwen Pelvia
Domiciliary midwife.
