Dear Barbara Macfarlane —

Mosemy's Post asked me to read  
you our tentacles and explained home with  
in under attack on your place!

As long as some money will stay at  
home negotiable at passage and on long  
on they are not taken lovingly to  
hospital in police van — you are  
O.K. After a head miss we are back  
on form and here sector all a very  
determined and severe attack by a determined  
pamphlet group founded by the makers of  
factual monitoring equipment.

The aim the source of your trouble —  
Capital! Sorry to read political.  
Best wishes, Margaret Whyte.
