Dear Madam/Sir,

I am writing to you to hope to obtain some information about "water birthing."

I am currently a pupil midwife, at the Royal Hospital For Women, Paddington, Sydney, and during my course I must give a lecture and submit information on the subject of my choice.

I have been deeply interested in this mode of delivery, since it was first publicised in the Newspapers, and Womens' Magazines, however my information is "scant" and my understanding unclear.

Hoping you will forward me material regarding this subject, as I'm sure that all of our "traditional" methods must and can be updated for the benefit of the next generation.

Thanking you,  
Yours sincerely,

Sister Victoria Pleass.

P.S. I am currently a member of the  
N.S.W Nurses Association:  
Reg no: NU0726698.
