Dear AABA

I always find your newsletters <sup>stimulating</sup> and today's one <sup>(July 9 Sept)</sup> is no exception. I would love a copy of the submission appendices - a really exciting and well-researched article.

I am at present writing a book on childbirth from a woman's non-expert, anti-traditional viewpoint and could well use much of the information in the newsletter. My eldest son was born in Akld (St Helen's thank God) and my daughter at home in Timaru. I fully support what you're doing.

Oh - where did the statistics come from p14-15 in the July newsletter? I would also love to get hold of Velle Cahill's survey when I had my Baby (briefly referred to, it would you prefer that I write to her?)

I hope that the enclosed cheque more than meets postage & printing. Keep up the good work!

Regards  
Sylvia Dixon
