AUCKLAND

Dear Marjet,

Your organization was recently a client of the ARTWORK Video Resource Team. The A.V.R.T. was a twelve month ARTWORK project which employed four videomakers to make educative videos for community use. The A.V.R.T. has been a very significant pioneer scheme in New Zealand and is now being used as a model for similar projects elsewhere in New Zealand.

To support ARTWORK'S case for new and similar projects we need the support of and feedback from those groups who have been clients of the A.V.R.T. Your comments about your completed video and its potential use will be of value to us in making our case for further similar programmes. Your comments will also be of great value to the videomakers that you worked with. I look forward to hearing from you. I know that ~~fact~~ has put in a tremendous amount of effort into your tape and we are very pleased with the result.

Attached is an invoice which covers the costs incurred in the making of your video less payments already received. We would be most grateful for prompt payment.

Yours sincerely,

Philip Clarke
ARTWORK Supervisor
