# 1. Dom in new health system.

community m/w =  
not sp m/w  
close smaller units

CHE will offer comprehensive package.

ie { Domino  
Early disch.  
Domiciliary

broader perspective of m/w — m/w = u/w = m/w

## 2. Dependence of Core Health Services.

Delay RHTA's & implementation

High Risk Obstet. = core health services

x rest you pay for.

hoping that new services special

Create a demand market ourselves.

m/w is m/w is m/w wherever the setting

## 2. Inchue DM Soc.

? Special group in univ. college

m/w forum — facilitated by ?

Focus to HBA's & members.

Bring us in as secret.

Stat. requirement for college to represent poor's o.o what does Soc. do?

Musks & mltw act.

defines mltw under WHO def.

real movement to realise "ridiculous"

hardest part now <sup>because</sup> struggles being personalised as struggle of other health prof  
= move into death throats.

? Co-ordinator to facilitate Doms special needs within College

→ regional & national

competence & cost effectiveness

AGM ~~of DMS~~ <sup>pre</sup> ~~meeting~~ <sup>meeting</sup> Conference = Remit to dissolve DMS.

May Conference ~~21st~~ 21st - 22nd panel

Riverside get together 20<sup>th</sup> 21<sup>st</sup> 22<sup>nd</sup> Nov.

### 3. DMSRC

Asked how DMSRC works?

~~Communication & honesty~~

communication & honesty been colleagues + HBA.  
Use DMSRC standards + procedure + make committee a working comm.  
need to be credible ~~at~~ locally, nationally as a standards R.C.

in hedge  
Parent Centre  
Home Centre  
Max action  
Consumer pool for DMSRC.

In climate now need to be able to say  
"No" when appropriate

"Normal" is self perceived & can be unsafe without experience.

1. identify a problem
  2. peer support
  3. special meeting
- } Strategy for dealing 'a difficult' issues

Mechanism for SRC. mtw & mtw

College ~~convened~~<sup>convene</sup> meetings & maybe separates areas of practice for review but seen as undermines together rather than separated publicly into Acad, Admin, Comm, Hosp. as focus for standards etc.

Rotunda most conferences = if open to GF's then open to mtw.

"excuse me in a professional & I would want to express my professional opinion could you please give me the courtesy of listening"

Yearly report to boards on who has taken part in OSR. may help give credibility to SRG to those mtw presenting for review

Direct Entry. Berly.

Opposition from unusual places.

Maggie's letter (from lawyers) to Dr Beacroft  
Questions to add:

- (1) What degree of lung congestion is necessary to produce significant signs of resp. distress?
- (2) Can you state categorically that a normal newborn has full lung expansion within 4 hours of birth?
- (3) Add 'planned' to question about % of babies born at home
- (4) We understand that you have seen the ~~qu~~ photos of Pedro's birth, in the light of these, ~~could you say that this~~ ~~infant~~ and the presence of ~~breast~~ ~~milk~~ ~~colostrum~~ breast milk in the stomach can you now profer your expert opinion as to this baby's condition at birth?

Suggest talking to Mark Tracy (wghtn neonatologist)  
Prior to asking Beacroft.
