Ms Lyn McLean,

Lyaill Bay,
WELLINGTON.

Dear Ms McLean,

I am very very sorry for not having got this underway sooner. We're flat out here, but that is really no excuse. Could you give me:

- a) an indication of how many midwives support your move,
- b) how much of your income is from the State? Do you charge the patient for your service?

The PSA only takes people for membership where a very clear majority want PSA membership and representation, and when those people have expressed a willingness to incur the responsibilities as well as the benefits of union membership (electing delegates, participating in the decisions etc.).

Secondly, those people must receive the major part of their income from the State.

I look forward to hearing from you and again my apologies.

Yours sincerely,
