Dear Lynn,

We were impressed by your replies to the questions on persistency & Home Births on Sharon Crosbie's programme. We would be interested to know if you had any responses or reactions directly related to the programme.

The main reason for this letter is, however, that Margaret McGowan, who as you know is President of the Midwives Interest Group for N.Z., has asked us if the Conjoint Midwives wish to put forward a remit to conference this year. They have to be in towards the end of October.

She thought we may be interested in putting one in regarding our financial return:

I know that we had hoped to have a meeting before the Home Birth week but I don't know if this is still possible.

I also recall indiscriminously about who we wanted to negotiate for us.

As I am ~~not~~ fairly heavily booked for October I would be happy to have a meeting to follow on from the Home Birth week.

Possibly also it could be worth while trying the Association with a remit to test their acceptability.

Best wishes

From,

Muriel.
