

20001-44-006

Minimum Data set for Perinatal Collection Codes - NSW

Place of birth: 1) hospital 2) other

Mother: Residence

Marital status: 1) single/unmarried
2) married/ defacto
3) widowed
4) divorced
5) separated
6) unknown

Race: 1) Caucasian 2) Aboriginal 3) Other
4) Unknown

Country of birth Date of birth

L.M.M.P.

Date of Admission Date of Discharge

Mode of Separation: 1) Discharged 2) Transferred 3) other

Number of previous pregnancies resulting in
1) Live birth 2) SB 3) abortion (a) total (b) spontaneous
4) unknown (c) induced

Pregnancy

Maternal Medical Conditions

Obstetrical Complications 1) none 2) Threatened abortion
3) APH (a) placenta praevia
(b) Abruptio placenta
(c) unknown
4) Hypertension 5) Other 6) unknown

Date & Completion of Previous Pregnancy

Outcome of Previous Pregnancy 1) Live birth 2) SB 3) abortion
4) unknown

Procedures/Operations during pregnancy

1) none 2) amniocentesis before 20 weeks
3) amniocentesis after 20 weeks 4) other

Labour/Delivery

Onset of labour: 1) spontaneous 2) Induced (a) Medical
2) No labour (b) Surgical
3) Unknown (c) Combined
(d) total induced

Presentation (in labour) 1) vertex 2) Breech 3) Other 4) unknown

Type of delivery 1) spontaneous 2) C/S (a) elective
3) forceps (b) emergency
(c) total
4) breech
5) Other 6) unknown

Complications of Labour/delivery: 1) none 2) fetal distress
3) cord prolapse 4) other 5) unknown

Puerperium - complication

BABE: Sex 1) Male 2) Female 3) Indeterminate

Date of Birth

Plurality & Order in multiple births 1) single 2) First twin
3) Second twin 4) other

Live/Still birth 1) Live birth 2) Stillbirth

Birth Weight

Date of discharge

Mode of separation 1) Discharge 2) Transfer 3) Died
(a) autopsy
(b) no autopsy

Congenital abnormalities

Neonatal morbidity

Patient classification Hospital - public/standard
private

Apgar score

Resuscitation 1) none 2) intubation 3) other
