6.6.81

Homebirth Friends,

In 1978 we started as a branch within a large childbirth and parenting group called Parents Centres Australia. On May 1, 1981 this branch became an independent organization promoting homebirths known now as Homebirth Association Sydney (H.A.S.)

We produce a newsletter four times a year and we are inviting your organization to become a member by subscription (\$5 Aust. per year) or by exchanging publications.

Whether your group produces a newsletter or not, you may also like to contribute to ours. We are interested in input from other countries as we believe exchange of information to be of great value especially in these early years of the development of the homebirth movement.

Hoping to hear from you soon,

Yours with best wishes,

Elaine Norling
for H.A.S.
