Dear Barbara,

Thank you for your letter and the offer to deliver my baby in Auckland.

I have spoken to the baby reporter for the woman's page of our local paper and she is finding out as much (or little) as she can and is going to do an article on home births.

I have also talked to the Public Health Nurse but no joy.

Nobody knows of a practising midwife here.

I am ~~at~~ now thinking of advertising for a midwife. How would I go about organising interested people into a branch of your association. I have never done anything like this before and its a bit

hard to take the plunge and start.

I would appreciate any help you can offer.

If I organized a meeting would some from your association come up and set us on the right track. If so I would be pleased to offer accomodation in our home.

Yours sincerely
Annette Kennedy.
