Dear Treasurer / Letter Opener / Mystery Person, I'm really interested in joining the Home Birth Association and receiving any information/newsletter you send out. We've just moved back into this area after 18 mths in Kaitera, and I don't know of anyone in this area who is interested in Home Birth, so I'd appreciate any information about contacts that you might have.

I've got a year old son (born in hospital) who was 5 weeks premature - can you tell me if that would put off any prospective midwives next time round? I'm not planning on having another baby just yet but would be really keen to have her/him at home if possible, even tho' the hospital

scene wasn't quite as horrendous as
I'd heard or imagined. (in Kaituma anyway).

I would really like any information
you have, and any reading lists or ideas
you recommend.

Thanks very much,

Regards

Sue Wood.
