Dear Sir,

With the August issue of Modern Medicine of New Zealand we have introduced a new feature ... "Newsfront".

This page provides an opportunity, at no cost, to communicate with the medical profession with details of forthcoming meetings, seminars, new pharmaceutical products or medical equipment, recent appointments and so on. A proof of the page as it appears in our August issue is attached.

I am writing to invite you to include Modern Medicine on your mailing list so that we may receive details about similar activities concerning your organisation. If space permits we will be pleased to include your announcement in a future issue.

Yours sincerely,

A.O.M. Gilmour, F.R.A.C.P.
