Homebirth

Box 7093

Dear People, my husband to be and I are having a child in late January. It's my first child and I am going on 26. As I would like to have a homebirth I would appreciate getting some information on the procedures. A lady called Joere lectured at Naturopathy College where I ~~am~~ am a student. Is there a library of this literature around without my having to buy all these books.

In anticipation of hearing from you.
Thank you.

Jane Stewart.
