Dear Sir / Madam,

This is an irate letter from a member of the Home Birth Association, last year my husband and I were members of the Association and did renew a subscription for this year. However I do not recall ever ~~see~~ receiving a receipt and have not received any newsletters since last December. The cheque for our subscription was made in November of last year and my bank records indicate that it was cleared. What has annoyed is that I have learned from another member that the annual general meeting - seminar was held last week-end and obviously I wasn't informed. For awhile I was keen to become involved in the Central Support Group but again have heard nothing from them. Obviously my interests are becoming diverted from the Home Birth Association; so how about getting your act abit more organized?

Yours sincerely  
Lorrie Boulton.

Support group.  
Sorry.
