Dear friends,

After receiving all your information about your coming conference, I took it up to our midwives' meeting and now I can't find it again. It must be somewhere around here and it will turn up, but not at the moment when I need it. One of our midwives, Sue Holland, who has been doing homebirth now for about three years, is very interested in going to the conference. Because of her family commitments she cannot do homebirth any more for a while (her last one is due now) and she is very keen to go, but the money of course is the thing that keeps all of us from attending. I seem to remember to read in your last letter that you were offering to pay fares for practicing midwives. Am I right there? And would it be single or return fare? As the date gets nearer to the conferences I am writing to you to ask if there is a possibility for Sue to attend and for you to pay her fares. We in Perth are so far away from everything.

We are having a conference, just a local one, this weekend on natural childbirth and how to teach it, had quite a good response to it but I am madly getting it all together, so have not much time to write any more. My husband and I are going on a promotion tour of natural childbirth and homebirth next month. We are leaving on May 9 and may be staying away for a year. Maybe there is a possibility of coming to Nw Zealand. I am taking all my films with me and hope for speaking engagements etc.

must stop now. Wishing you all the best.  
Sue's address is : 44 Ashburton Str. Bentley W.A. 6102 tel. (09)- 4511940

Every success for the future, ( I am collecting statistics again from all over Australia. Could you let me have yours too)

(Henny Ligtermeet)
