Ak. 1.

Dear Barbara,

It was really great to receive a letter from you. It certainly gave us another look at the situation.

Since, I wrote the last letter to you, well in that time we have found out that our blood groups are not compatible, so it means extra attention, also the closer the time comes to having this baby the more we feel its better to go to Thames Hospital.

Although we are really grateful on the information you send us,

and, I'm sure in the future we  
will certainly be in contact again.  
You've been very helpful thank-you.  
Do you have a monthly newsletter  
or pamphlet of your association  
as to keep up with whats happening?  
Thank-you again.

Yours Sincerely,  
Dorothy Diet Kee.  
AmKee.
