

20073-24-004

Could you please send me information concerning the law the government is about to pass abolishing home births I have had a home birth & ~~was~~ found it very hard to get help as it was a waikato birth I'm very interested to know if anything has been or about to be done or in fact can be done to change what is happening I think it's very important that the government help mid wives & not make it very hard for them to work

Thanks Brendz Miller
