Dear Friends

I'd like to join the Association on behalf of my sister Veronika, who is now a practicing midwife in Derby - England, after finishing her 3 years intensive, practical training at the hospital. Veronika passed with flying colours and has carried on to do a Intensive Baby care course, (which she finished), and also a Family Planning + Community Service course, almost finished.

Veronika is a Kiwi and longs to come home sometime to practice as a domiciliary midwife in NZ.

I'm not really sure if Veronika is a member of the Assoc. or

has been in touch, or you know of her at all; so the idea is really that I pass all relevant information, newsletters, and your news and views on to her in England so she has more of an idea of what is happening in our fair country.

Apart from just the normal newsletters I'm sure Veronica would be very interested in the assoc.'s idea as to her position and possibilities in U.S.

~~She~~ Enclosed is a little extra for any extra work it might entail. Good luck to the movement, looking forward to a reply.
A firm believer in Home Birth.

Regards Ian Muller.
