

20073-24-043 Hamilton

To the N.Z. H.B. Ass. 17-8-82
To Barbara Macfarlane, tel 436-564

Thank you very much for your letter from 23-6-82. Sorry I haven't written earlier, but I have been very busy.

I just shifted in a house, cleaning, painting wallpaper, buy furniture and look for a job.

If you think it is going to do any good to anyone, which I doubt, you could write something in a paper, as long as you do not mention my name.

The Nursing Profession and Obstetricians are all very much against Home Deliveries, ^{N.Z.} so I doubt if you win anything.

I do not feel like being a domicilliary Midw, if my own colleagues ^(Nurses) are gainst me. Also the G.P. will need support from the Obstetricians, they can't do without them.

I am not interested in a interview it is not worth it, you only put

more people against you.

N.Z. is not ready and most probably never will be, for H.O.

Why is Holland, + England going over from H.O. to Hospital deliveries? Why should N.Z. do it the other way round?

I have not contacted the H.B. association - Hamilton, as I am not prepared to fight for something you will never get.

The big High Ranking Nurses have already made up their minds + Obstetricians, that there will be no H.O. in N.Z.

I am sorry I can be of no more help to your organisation.

I wish you all well and success with Maternity Hosp.

Yours sincerely,

Mrs C. Van der Hulst

9 Forth Cresc.

Glenview. Hamilton.
