Dear Women,

We are a group of feminists based at the Auckland Women's Health Centre who are presently establishing an information, listening and referral telephone service, run by woman and for women, to be called 'WOMANLINE'.

We are trying to build up comprehensive resource files which will give us information about groups and available resources all over New Zealand.

We would appreciate any information which you could provide us with about existing services in your area. The address to write to is as above. We look forward to hearing from you soon. Thanks.

Yours in struggle,

Jane Adams
