Dear Friends,
* We, at Mothering magazine, are currently preparing to update our Fall feature of "Midwifery and the Law." We are very interested in including information regarding lay and nurse midwives and home birth in other countries.

I am enclosing a copy of the questionnaire we are using to compile information from each state in the U.S. This is just to give you some idea of the type of information we would like from you.

* We would greatly appreciate somewhere between 250-300 words from you regarding the status of midwifery and home birth in New Zealand. Unfortunately, our deadline is rapidly approaching. I must receive this information no later than July 15, 1982 to be able to include it in this article.

If you feel that you have more to say than you can cover in 250-300 words, feel free to write and we will make it a separate article.

I have also enclosed a self addressed, stamped envelope for your convenience.

Thank you so much for your help.

Sincerely,
Angie Fallow - Fleury
The Staff of Mothering
