NEW PLIMMOUTH.

Dear Madam,

I am a student general nurse
at present studying Obstetrics with a special
interest in the antenatal care, preparation +
delivery of babies in the home.

I wonder if you have any information with
regard to the legal aspects, practical manage-
ment and research on home deliveries. Also
any information on the alternatives to
hospital confinements would be welcomed.

I enclose a stamped addressed envelope
in anticipation of your reply, which I
await with interest.

Yours faithfully,

Gillian R. Trenam (Mrs.)
