Wellesley Street, Auckland.

Dear Person,

I am a 25 year old mother of a young 15 month old girl, in my second year of training at Auckland Teachers College. As part of the compulsory Educational Psychology studies, I am obliged to deliver a seminar, with open choice of topic. As the mother of a child I have an avid interest in birthing - particularly homebirth - and all its implications, and have decided to write my paper on the "Birth Process Effects on Later Learning & Behaviour."

I wish to obtain any relevant information that you may have, from your own experiences and studies. Please find enclosed, a stamped addressed envelope.

Thanking you for your time and help.

Yours Sincerely,

Victor McGeorge  
Jilliam Wittmer

CarShyn Meredith.
