HOME BIRTH GROUP - MELBOURNE
Jika Jika Community Centre,
P.O. Box 2, Northcote, 3070.

2nd. April, 1982.

To the Secretary/Co-ordinator,

Here are the registration forms for the National Get-Together being held in Melbourne in May. Could you distribute them to all interested people (midwives, birth-helpers, mothers, fathers, childbirth educators, doctors) and ask that they be returned to me as soon as possible so as we can co-ordinate things here for a successful conference.

We are inviting as many doctors as we know in the hope that they will form a support group of and for doctors helping with homebirths. The Saturday morning session has been set aside for a "Doctors' Sharing Session" and will be an excellent opportunity for us all to share our knowledge and get to know each other. We are asking that each state group invites the doctors from that state as we don't know who all the doctors are and by doing this we will hopefully have a large number of doctors attending the conference. Would you also send them a registration form and ask that if they cannot come for the whole week to at least try to make it for the Saturday session.
