Dear Secretary

I wonder if your association could help me. I am a N.Z. Registered General Nurse and want to do my Midwifery. If possible I'd like to do a course that has a strong accent on home births and from what I hear the Tech. Course at Auckland doesn't exactly do this. Therefore I'm thinking about Australia - do you have any knowledge of hospitals/tech. courses over there that you could recommend? (Australia also suits me for personal reasons). I'd be grateful for any advice, if you can.

Yours faithfully,

Shirley Lee
