Dear Sir/Madam,

I am a third year comprehensive Nursing student, who is at present completing an obstetrics module. As part of this module, we are required to complete an assignment, presenting a totally non-judgemental & objective discussion about the advantages and disadvantages of Home Births.

The issue of Home Births is indeed a very important one, but one topic of which I have a limited knowledge. Therefore, I am writing to ask if you have any relevant information that would assist me in my presentation of the topic.

I have enclosed a stamp for your reply, and I am happy to meet any additional cost. Thank you for your assistance.

Yours faithfully
Lynnette Ashby
