Auckland

Dear Secretary,  
Apologies for the "title" but  
I've lost track of who is secretary now.  
I'm enquiring about the home birth situation  
in Australia. A friend who is expecting her  
second child about May '86 was planning on  
a home birth here in N.Z. but has recently  
discovered they will be moving to Australia  
before then, but still wishes to follow up the  
home birth option.

If you don't have access to the appropriate  
information, perhaps you could provide a

contact address in Australia.

The particular area she will be in is a place called Eden which is on the border of N.S.W. + Victoria --- about 1-2 hrs from Melbourne.

Thanking you,

Regards

Judi Strid

P.S. - Have included a SAE for your reply. I would also appreciate any information on ultrasound scans - Thanks.
