Dear Lillian

Thank you for your letter of November 16 and my apologies for the delay in replying to you.

I have put your association on the directory of women's organisations and look forward to receiving any publicity material or information generated by your group.

To give you a better idea of how Aditel works I have enclosed some brochures. If you have any further questions after reading these please do not hesitate to contact me.

Once again, thankyou for your letter.

Yours sincerely

Sue Reid
