Gentlepeople:

November, 1984, I had the marvelous pleasure of visiting Christchurch, South Island. I was most favorably impressed with the beautiful countryside, and its friendly people, as well as the high regard everyone had for their families, their homes, and their surroundings.

Although the provision of adoptable babies may not be a part of your organization's services, if there is known to you a resource or two in your city, I would be most appreciative of being advised of names and addresses of such resources.

I trust the self addressed, stamped envelope may be of help, if indeed there are such resources known.

Any help you may be able to provide will be most appreciated.

Very truly yours,

Clyde Clemens
