Dear Gillian,
Many thanks for your letter and for the video. We all look forward to seeing it during our Film Festival.

Like the Auckland group we are in the midst of changing roles and responsibilities, hence Gillian is not answering your letter. She thanks you for sending the video though.

We have several things to ask you.

We have been offered a 20" video by a sympathetic video-producer for the cost of the tape! But unfortunately we can't seem to get a core group together aside from the Committee members to actually plan it. I feel that the actual 'birth' process is well documented now and wonder if we should make a video with a different slant. Any ideas? I thought just people talking about their experience, a doctor or two and whatnot. I would appreciate any comments from your branch.

Also for our film nights we thought we might sell a few car bumper stickers & window stickers. Do you have some to send down to us? Any T-shirts etc.?
Cent.

Have you made any further progress on setting up your constitution. We would like to hear about how you are getting on in this area.

Regards
Barbara Glass.
