Hamilton

Dear Madam/Sir,

I am a registered nurse and am hoping to do my midwifery next year. One of my long term goals is to do domiciliary midwifery.

I was wondering if you could send me any information about your association, what you do, what qualifications and experience your midwives have.

I am very interested in naturopathy and homeopathy and shall become very actively involved in these fields over the next few years. Does this area play a role in your association, and with the directors you are involved in?

Any information would be very much appreciated.

Thank-you

Greta Naylor (Miss)
