Dear Dr Mendelsohn,

It is with deep regret and sadness that we have found it necessary to cancel our Natural Health Convention in April, 1985.

Our Company has experienced many external and internal pressures which have resulted in poor support for the Convention. We believe that to justify a speaker of your calibre and experience, and to ensure that you are given maximum opportunity to share that experience, we would need to have five times the number of registrations that we have at this point in time.

We sincerely apologise for the obvious disappointment and inconvenience that this decision will cause yourself and your wife, and we hope that you will allow us to approach you when our Company is in a stronger position.

May I take this opportunity to say that I was very impressed with your books and feel sorry that we are not able to bring you to the South Pacific at a time when your experience is needed most.

Unfortunately New Zealand have been forced to scale down their Convention for similar reasons and will be unable to bring any overseas speakers.

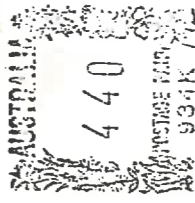

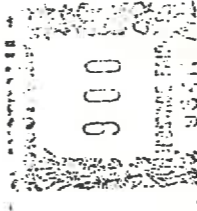

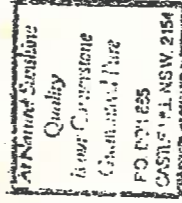

In closing, I wish you and your wife every success in 1985 and I look forward to being able to honour our request at a more appropriate time.

Sincerely yours,

ROBERT J. GRIFFITH
