AUSTRALIA

Dear Renee,

Thankyou very much for your letter requesting contributions from our association for the 1986 National Homebirth Conference. May I apologize profusely for the delay in response but we have recently had a secretarial shift and unfortunately your letter was lost for a time in the shuffle.

Your request was tabled at our last committee meeting. It appears that we will not have a representative at the conference - Joan Donley will regrettably not be in attendance as she was unable to refuse one birth in particular which will be due at that time. Also, since you had hoped to draft an agenda by 4 August we felt that our contributions would be a little belated, to say the least.

However, we remain grateful that you have included New Zealand in your planning stages and we wish you every success. I have forwarded your letter to the National Newsletter Committee and once your plans are finalized we would be happy to publish them in our newsletter. There could certainly be parents or midwives travelling to Australia at that time.

Faithfully yours,

Lillian Dunn
