Dear Jan Clifton

The Auckland domiciliary midwives and general practitioners who cover for home birth have asked me to write to you to express their appreciation of the way in which transfers from planned home births to National Womens Hospital are received by your staff. They are grateful for the quality of care and attention given to home birth mothers at these times. This care, has made a situation, which ^{is} sometimes quite disturbing for mothers, very much easier to cope with.

I would also like to thank you on behalf of the members of our Association; we feel very confident in recommending National Womens as a back-up hospital to home birth mothers. If there is any way in which we can assist in making this process an even smoother one, please do not hesitate to contact us.

Sincerely

Brenda Hinton
Secretary AHBA
