R.D.I.  
Whitianga

Hello there from the Coro perinuclear

Things aren't too political here at the moment although it's happening on the grass roots level with women refusing to go into hospital and Jean & Joney have delivered two babies at home in the passed two months in the interests of doing as their patient says

Been wonderful experiences for the parents and it's been the talk of the town.

Good for the movement eh?

The Hawkei group has joined forces with women in Te Aroha with the support of Ruth Dehelt - there is still a fight on to keep the Te Aroha Hospital open - have had meetings with the united council - re keeping the Hospital open and employing a Dom Midwife to work the shop - has been positive on some fronts

lotsa quite rumblings going on

See you at the conference. !!

Oh Lea the reason for this letter Linda Luedon please send me some envelope labels. TA.
