Home Birth Association
Auckland.

Dear Homebirthers,

I am enclosing a cheque of \$20 for membership of the Home Birth Assoc. and to receive the newsletter.

I have had a long and involved interest in home births - although how only academic! In the past I have worked as a domiciliary midwife 7-8 years, had one baby at home myself, and been involved in antenatal education over the past twenty years or so.

After 23 years in England I have returned with my family to New Zealand (Aug 85) and am now a nurse teacher at Carrington Technical Institute. My particular interest lies in the obstetric section of the nursing course and specifically in the promotion of normal childbirth. I have been in contact with Joan Donnelly during the past six months and we are

hoping that our students will be able
to spend at least one day with a
domiciliary midwife.

All that - by way of a potted history
to explain the cheque! I am hoping
to be able to attend part of the
conference in May.

I look forward to meeting some
of you one day,

Yours sincerely,
Jillie Cole.
