

# AUCKLAND HOME BIRTH ASSOCIATION

P.O. Box 7093 Wellesley Street Auckland

11/8/87

Dear Mica,

It has been brought to our attention that the Primary Healthcare Task Force intends to produce an educational video. With this project 'in mind' we would like to ~~request~~ <sup>urge</sup> ~~that~~ you ~~include~~ <sup>to devote</sup> a section of the video ~~dedicated~~ to the role of the Domestic Midwife as a ~~professional~~ Primary Healthcare Professional.

(Because of Role. — Meeting first.  
 & prior knowledge of the 2 Healthcare physical working closely with GP — prevention trusted person)

~~The role of the DMI enables her to meet with families prior to the birth enabling her, because of her close liaison with the woman's GP, to be aware of any potential physical problems that may arise for mother or baby.~~

~~Her's of ~~experiences~~ are helped <sup>in work</sup> by this ~~document~~ yet a lot of ~~society~~ ~~the~~ ~~understand~~ of the DMI's role and we feel that by including <sup>the DMI in</sup> a section of this video ~~dedicated to the DMI~~ that ~~it~~ ~~may~~ ~~be~~ a ~~more~~ ~~accessible~~ option, ~~and~~ their role in PHIC may be more fully understood.~~

matter. Serious consideration

If you have any further queries  
 D & D.
