Hi!

In late October/early November last year I sent a cheque for \$15.00 to you ordering a copy of information on immunisations - I already have the first set you made available & this \$15 was for more information on this topic.

I have not yet received the papers and in the

last few days have just been notified by our bank that the \$15 cheque had 'bounced' as we had made an error in our cheque book record.

Please could you write or telephone (491-907) me to let me know if you still have the cheque and if this confusion over the cheque is the reason that I have not received the papers?

I apologise for any confusion our error has caused & look forward to hearing from you.

Yours sincerely  
Penelope Craft
