

20073-7-044

① Why did you choose a home birth?

- Because I had my first child in hospital and found it very unsatisfactory and felt my second child would have a better start in life for being born at home, as well as the knowing the satisfaction of knowing I had done my best for her.

② Where did you get your information on home birth?

- from a friend who was a male student nurse.

③ Was your home-birth all you had hoped for? →

very much so - and more.
